Victim Assistance

Becoming a victim of a violent crime can have a devastating impact on a person. Many victims of violent crime suffer physical and/or emotional harm and financial loss as a result of the crime. Other victims may face retaliation or intimidation and may be confused by the criminal justice system. Many victims may feel that they have few options. Others may feel unable to avoid further victimization.

Assistance is available for victims of violent crimes through the Sacramento County District Attorney's Victim Witness Assistance Program. Trained and experienced Victim Advocates provide crisis intervention counselling, information about the criminal justice system, court support, advocacy, assistance with filing for victim compensation, and community referrals.

The Sacramento County District Attorney's Office is dedicated to providing advocacy and support services to victims of crime. Victims are forced into difficult situations that are unfamiliar and traumatic. The victim advocates in the Victim Witness Assistance Program are committed to supporting you and your family in the aftermath of crime, providing guidance through the criminal justice process, and locating appropriate support services.

This office ensures that victims' needs and concerns are always respected. Our goal is for each victim to receive the support needed to be able to continue with their lives after the crime. If you need assistance, please call to speak to a victim advocate.

Sincerely,

Anne Marie Schubert, District Attorney
