RE: Vincent Guevara CDC # BD0970

Court Docket: 15F03137

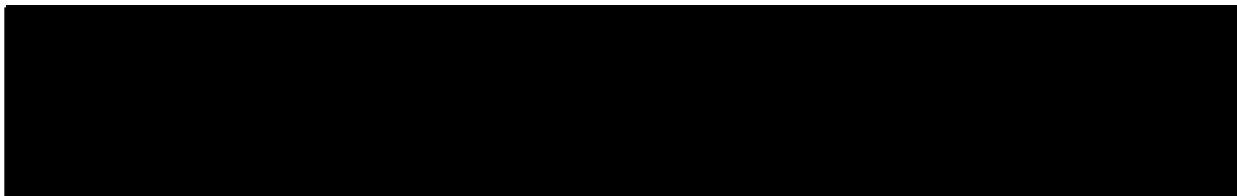

Board of Parole Hearing Members,

Inmate Guevara should not be paroled. The circumstances surrounding his current conviction and his prior criminal record show that he poses an unreasonable risk to the community.

Inmate Guevara's first residential burglary occurred on June 05, 2013. He kicked in the backdoor to the home, walked up the stairs, and stole a laptop. Inmate Guevara then hid the laptop in a bush in the park across the street from the victim's house. Moments later, Inmate Guevara proceeded to another home. He attempted to force open the front door and the garage. When the officers approached inmate Guevara, they found him hiding in the garage. The officers commanded inmate Guevara to show his hands, but he failed to comply and instead lowered his hands to his pockets as he walked toward the officer. The officer feared for his safety and had to use an arm bar take down to guide inmate Guevara to the ground. Inmate Guevara received his first strike.

Shortly after receiving his first strike, inmate Guevara violated his felony probation on October 8, 2014. In this instance inmate Guevara stole three sets of Sony headphones and claimed that he stole them to feed his family. Additionally the officers located methamphetamine in his pocket.

In regards to his current offense, which occurred on May 25, 2015, inmate Guevara burglarized the home of victim, [REDACTED]. Inmate Guevara broke into [REDACTED] home through a window screen outside of her son's bedroom. He then went to [REDACTED] front door and demanded to come inside. [REDACTED] could tell that he was intoxicated and told him to leave. Moments later, [REDACTED] heard a loud crash and found inmate Guevara inside of her son's bedroom.

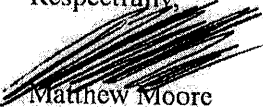

Inmate Guevara learned nothing from his time served and made no effort to become a law abiding citizen. Shortly after his first conviction for burglary, he violated his probation when he stole merchandise from a Rite Aid. Less than a year later, inmate Guevara received his second strike when he burglarized the home of victim [REDACTED]. Additionally, he made little effort to improve in jail [REDACTED].

Residential burglaries are inherently dangerous crimes, as victims of such crimes could possibly be injured or killed, or the criminal himself could be injured or killed by the victim during the commission of the crime. Inmate Guevara's history of residential burglaries, drug use, [REDACTED] as well as his unwillingness to obey police directives clearly shows that he is a danger to others as well as to himself.

As we are given 30 days to respond, and we are only provided with little information aside from the one page notice of parole review, I cannot comment further on inmate Guevara's prison conduct. However, from the record that is available it is clear that inmate Guevara should not be released as he poses a significant and unreasonable risk to himself and the community.

I ask you to please deny his parole in the interest of justice and for the safety of our community.

Respectfully,

Matthew Moore
Deputy District Attorney
Sacramento County District Attorney's Office
